FIRE AT RAWA KUCING LANDFILL NEAR SOEKARNO-HATTA AIRPORT

Seven flights to Soekarno-Hatta International Airport (CGK) in Cengkareng, Banten, were diverted on Saturday (21/10) due to continuously decreasing visibility caused by smoke from a fire that has been blazing Rawa Kucing Final Processing Site (TPA), in Tangerang City, Banten, since Friday (21/10) at about 1430hrs. Dozens of people were evacuated as the fire approached the residential area.

Mitigation Measures

On Sunday (22/10), Airnav Indonesia's Corporate Secretary, Hermana Soegijantoro, stated that the Indonesian Air Navigation Services Institute Public Company (Perum LPPNPI) had taken mitigation measures by issuing Notice to Airmen (NOTAM) Number A3092-23 which aims to provide notification to all flights to maintain safety, security, flight regularity, and reduce the potential for delays at the airport.

Since the fire broke out, firefighting personnel have been dispatched to extinguish the fire, including deploying 10 heavy equipment to locate the source of the fire. Huge efforts are still underway to completely stop the fire at Rawa Kucing TPA as the location of the fire is situated just 2.5km from the Soekarno-Hatta International Airport (CGK). Jl. Iskandar Muda, which is the only access to the landfill, is closed to public vehicles and only used for firefighting vehicles and related officers.

Mayor of Tangerang Arief Rachadiono Wismansyah said the Tangerang city government has written to the National Disaster Mitigation Agency (BNPB) to deploy water-bombing helicopters to extinguish the fire from the air.
